ESPIONAGE - R

ALL INFORMATION CONTAINED

DATE 6/24/92 BY 983rad/hcy

A physical surveillance is being instituted concerning STONE (code name GREELEY). STONE is the subject of an espionage investigation. His present activities in this regard are not known. The purpose of this surveillance will be to determine STONE's present activities, to identify his contacts, and to determine if he is presently engaged in espionage.

STONE moved to Washington, D. C., from New York about March 1, 1953, and now resides at 5618 Nebraska Avenue, N. W. His home is in a better than average residential neighborhood and may present some problems when efforts are made at discreet surveillance.

Since January, 1953, STONE has been editing and publishing a Washington newsletter, "I. F. STONE'S WEEKLY". The offices of this newsletter are located in Room 205, 301 East Capitol. The rooms occupied by STONE are in the southwest corner of the second floor of this building overlooking Third Street, S. E. It is not possible to see who is in STONE's office from the street, but it is believed that signs of activity and the fact that the office is or is not occupied can be determined from outside.

STONE apparently spends much of his workday away from his office, presumably engaged in newsgathering and contacting his sources of information. Spot checks at STONE's office indicate that he returns there at 2 or 3 P.M. and stays until 5:00 P.M., or 6:00 P.M. It is therefore planned to begin the surveillance at 2:00 P.M. each day in the vicinity of 301 East Capitol Street.

STONE is <sup>not</sup> known to have any regular office help; however, it was determined on October 8, 1953, that his wife has been helping him at the office with the necessary secretarial and clerical work.

STONE's automobile is a dark green 1952 Nash Rambler convertible with a tan top, 1953 D. C. license 5-8511.

Re: ISIDOR FEINSTEIN STONE, was.,

(X)  
SEE NEXT  
SERIAL

Information has been received that STONE makes rather frequent trips, presumably to New York City. He is not to be surveilled if he leaves Washington at this time, but should he go by train or plane efforts should be made to determine his destination.

STONE is described as follows:

Age	47
Height	5' 6" or 7"
Weight	160
Build	Stocky
Eyes	Blue
Hair	Brown
Complexion	Fair
Characteristics	Notoriously sloppy dresser. - Hair never combed. Wears hearing aid and steel rimmed glasses.

No description of STONE's wife, ESTHER ROISMAN STONE, is presently available. Photographs of both STONE and his wife are available. Those of STONE are good likenesses. The writer has never seen Mrs. STONE.

IMPORTANT!! IMPORTANT!! IMPORTANT!!

STONE has been a bitter critic of the Bureau in his writings and speeches for many years. Practically every issue of his "WEEKLY" contains an attack on or at least some uncomplimentary reference to the Director, the Bureau, or Bureau Agents. This surveillance must be conducted with the utmost discretion. If there is a possibility that Agents have been or might be "made" the surveillance is to be dropped immediately. STONE is an intelligent and observant man and as stated above has a hearty dislike for the Bureau. If he does "make" the surveillance he will undoubtedly use his newsletter to good advantage in embarrassing the Bureau. This is a very delicate situation and consistent intelligent effort must be expended to insure that the surveillance is properly, and at all costs discreetly, conducted.

It is planned to surveill STONE at the outset from 2:00 P.M. to 11:00 P.M. during the week, from 10:00 A.M. to 6:00 P.M. on Saturday, and not at all on Sunday. A surveillance schedule for the first week has been prepared. Please consult.
